

WHAT IS HEIJUNKA?

WHAT IS HEIJUNKA?

WHAT IS HEIJUNKA?

CUSTOMERS ARE NOT PREDICTABLE

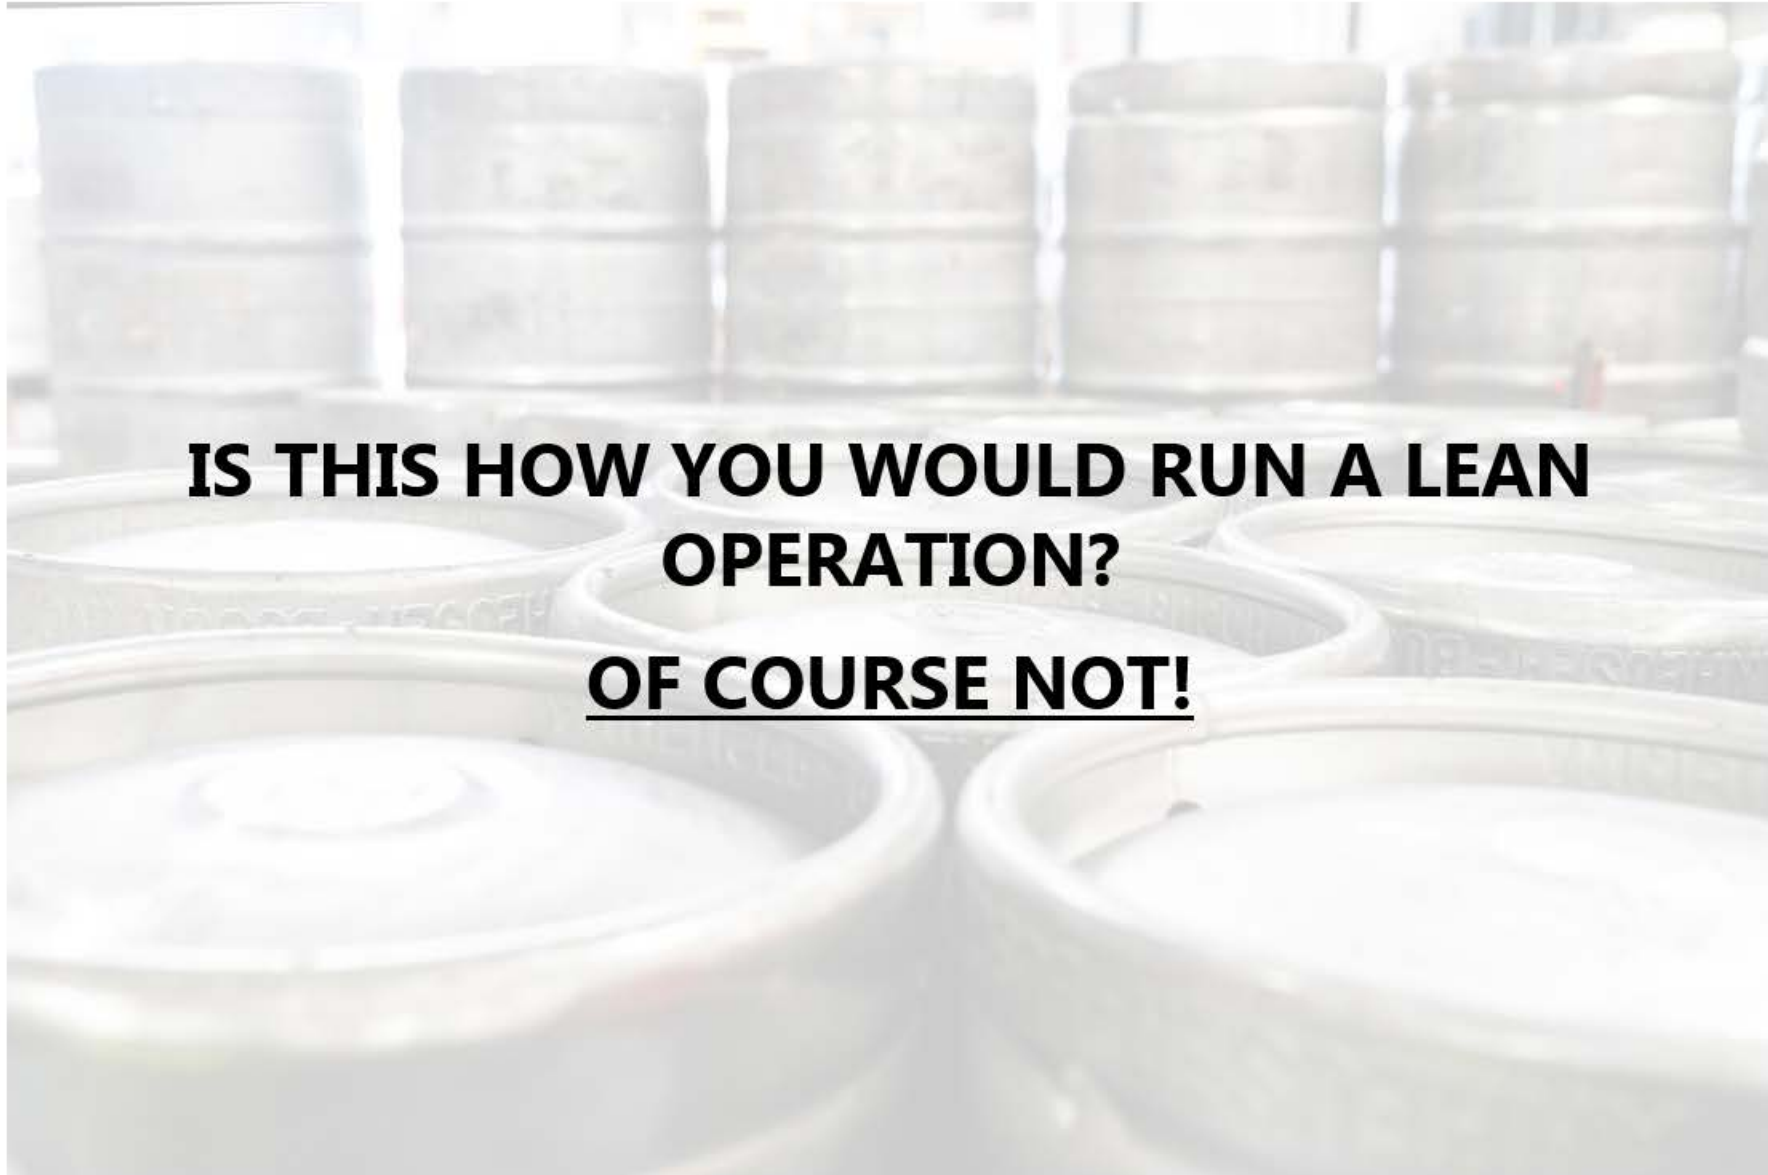

ACTUAL CUSTOMER ORDERS MAY VARY SIGNIFICANTLY

IF PRODUCTS WERE BUILT AS ORDERED – YOU MAY BE BUILDING HUGE QUANTITIES ONE WEEK, PAYING OVERTIME, & STRESSING YOUR PEOPLE & EQUIPMENT

IF ORDERS WERE LIGHT NEXT WEEK – YOUR PEOPLE WILL HAVE LITTLE TO DO & EQUIPMENT WILL BE UNDERUTILIZED

YOU WILL NOT KNOW HOW MUCH TO ORDER FROM SUPPLIERS

WHAT IS HEIJUNKA?

**IS THIS HOW YOU WOULD RUN A LEAN
OPERATION?**

OF COURSE NOT!

WHAT IS HEIJUNKA?

STRICT BUILD-TO-ORDER MODEL CAN CREATE PILES OF INVENTORY

ALSO LEAD TO HIDDEN PROBLEMS, POOR QUALITY AND A CHAOTIC WORK ENVIRONMENT LEADING TO VERY HIGH LEAD TIMES

ORGANIZATION THAT ADOPTS LEAN PRINCIPLES CAN CREATE STREAMLINED OPERATIONS

HEIJUNKA = LEVELING OUT THE PRODUCTION SCHEDULE

WHAT IS HEIJUNKA?

HEIJUNKA IS THE LEVELING OF PRODUCTION BY BOTH VOLUME AND PRODUCT MIX

IT DOES NOT BUILD PRODUCTS ACCORDING TO THE ACTUAL FLOW OF CUSTOMER ORDERS

IT TAKES THE TOTAL VOLUME OF ORDERS IN A PERIOD AND LEVELS THEM OUT

WHY HEIJUNKA?

BENEFITS OF HEIJUNKA:

- 1. PROVIDES FLEXIBILITY TO MAKE WHAT THE CUSTOMER WANTS WHEN THEY WANT IT**
- 2. REDUCES THE RISK OF HIGH INVENTORY AS IT LEVELS THE PRODUCTION PROCESS**
- 3. BALANCED USE OF LABOR AND MACHINES**
- 4. STREAMLINED DEMAND ON UPSTREAM PROCESSES AND THE PLANT'S SUPPLIERS**

WHEN TO USE HEIJUNKA?

IMPLEMENT HEIJUNKA AS A NORM IN YOUR PRODUCTION PROCESS

IT IS NOT A ONE-TIME TOOL

**WORK LOAD LEVELING IS A PRACTICE THAT NEEDS TO BE
FOLLOWED WHILE SCHEDULING YOUR PRODUCTION PROCESS**
