

STEPS TO IMPLEMENT VISUAL CONTROL

STEP 01: WHERE IS VISUAL CONTROL REQUIRED?

YOU BEGIN BY IDENTIFYING AREAS WHERE VISUAL CONTROL IS REQUIRED

GENERAL AREAS ARE ON THE SHOP FLOOR, RIGHT NEXT TO THE AREA WHERE ACTUAL WORK TAKES PLACE

STEP 02: ASK QUESTIONS

ASK QUESTIONS SUCH AS:

- **WHAT SHOULD THE VISUAL CONTROL BOARD LOOK LIKE?**
- **WHAT AND HOW MANY METRICS CAN BE PLACED ON THE BOARD?**
- **HOW CAN THE DATA BE TAILORED SO THAT EVEN A LAYMAN CAN UNDERSTAND THE VISUAL CONTROL BOARD?**

STEP 03: SELECT THE RIGHT VISUAL CONTROL BOARD

THERE ARE SEVERAL WAYS IN WHICH YOU CAN DISPLAY INFORMATION VISUALLY

IT COULD BE A SIMPLE WHITEBOARD WITH METRICS AND OTHER ITEMS LISTED IN IT

OR IT COULD BE AN LED SCREEN OR A TV DISPLAYING THESE METRICS

STEP 04: DETERMINE THE AUDIENCE

IDENTIFY THE AUDIENCE WHO WILL MAKE USE OF THE BOARD

**GENERALLY FOR EMPLOYEES – THEY ARE ABLE TO UNDERSTAND
HOW GOOD ARE THEY AT THEIR WORK**

**AUDIENCE CAN ALSO BE PROCESS SUPERVISORS, MANAGERS AND
THE SENIOR MANAGEMENT TEAM**

**ALSO FIND OUT WHO WILL UPDATE THE VISUAL CONTROL BOARD
ON A REGULAR BASIS**

STEP 05: HOW WILL THE DATA BE PRESENTED?

KEEPING IN MIND THE NEEDS OF YOUR AUDIENCE, DESIGN YOUR VISUAL CONTROL BOARD SO THAT IT COULD EASILY DISPLAY ALL THE METRICS YOU HAVE IDENTIFIED IN STEP 02

STEP 06: DISPLAY THE VISUAL CONTROL BOARD

**DISPLAY THE VISUAL CONTROL BOARD AT PROMINENT PLACES
ACROSS THE FLOOR WHERE IT IS VISIBLE**

STEP 07: CONTINUOUSLY IMPROVE THE BOARD

THE BUSINESS PROCESS AND YOU HAVE TO CONTINUALLY BE ON A LOOKOUT TO IMPROVE YOUR VISUAL CONTROL BOARDS.

SEEK FEEDBACK, INCORPORATE THE CHANGE, THEN CONTINUE THE PROCESS
